Education

Purdue University

Bachelor of Science in Computer Science (CGPA: 3.71 / 4.00)

Graduation: Fall 2023

West Lafayette, Indiana

Research Experience

DMIS Lab - Korea University

AI Researcher

01/2024 – Present

Seoul, Korea

- Contribute to in-depth SOTA studies, participate in insightful research seminars and Stanford CS224n studies, and present pioneering research findings.
- Participate in the "Reliable Text-to-SQL on Electronic Health Records" challenge to develop a language model that generates queries from user instructions. My responsibilities included analyzing and identifying trends in unanswerable queries to enhance model accuracy and reliability.
- Collaborate on a project focusing on multi-document summarization techniques designed to assist researchers in efficiently composing the related work sections of their papers.

SIMPLE Lab - Purdue University

Undergraduate Research Assistant / Undergraduate Researcher

10/2022 – Present

West Lafayette, Indiana

- Finetuned the cutting-edge Large Language Model (LLM) by leveraging the Alpaca methodology, built on the foundation of the LLaMA2 model, with the strategic application of LoRA and 4-bit Quantization for enhanced performance and computational efficiency using Huggingface.
- Analyzed over 100 models utilizing YOLOv5 in the intersection of computer vision and civil engineering, focusing on Transfer Learning and Domain Adaptation. This extensive study led to the publication of a co-authored journal paper.
- Developed a program utilizing the YOLOv5 Object Detection model to automatically delete videos featuring more than two individuals from a dataset of 25,000 videos totaling 1.4 TB and to apply automatic blurring on human faces for privacy enhancement using the DeepFace model.

HBF Lab - Seoul National University

Undergraduate Researcher

05/2022 – 08/2022

Seoul, Korea

- Conducted in-depth analysis and delivered presentations on the effectiveness of various Machine Learning models, such as DNN and RNN, in Deep Learning.
- Conducted Speech-Decoding experiments on individuals with epilepsy, analyzing neural data to identify key features for the SVM Machine Learning model in a four billion dollar government-led project called "Alchemist."

The Data Mine - Purdue University & UPS

Undergraduate Data Science Researcher

08/2021 – 05/2022

West Lafayette, Indiana

- Collaborated with UPS on Cross Reference and used Python and PowerBI to analyze the dataset provided by UPS using internal and external resources to give UPS insight into what portfolio companies to invest in.
- Developed a predictive model using a K-means algorithm in the Scikit-Learn framework with the data to access the potential of portfolio companies with which UPS could partner.

Work Experience

Samsung Electronics

Software Engineering Intern

06/2023 – 08/2023

Suwon, Korea

- Developed an automated program utilizing a probabilistic methodology to identify mobile AP program performance segments in Galaxy series products.
- Conducted in-depth analysis of current and voltage usage in application processes utilizing Geekbench5.

Department of Computer Science

Undergraduate Teaching Assistant - CS 17700

08/2022 – 12/2023

West Lafayette, Indiana

- Created customized Python assignments for students based on their level of proficiency and course requirements, ensuring effective learning outcomes.
- Instructed course materials and provided guidance to students in lab sessions while also assisting the Graduate Teaching Assistant in supervising and grading student work.

Independent

Web Development Tutor

05/2022 – 08/2022

Seoul, Korea

- Provided personalized web development tutoring to two design students, guiding them through creating and deploying their websites from scratch.
- Designed a 12-week course about web development. — Course Website: officerchul.github.io/webDev101

Purdue University Residences

Student Office Staff

08/2021 – 05/2022

West Lafayette, Indiana

- Served as a front-line representative of University Residences within the First Street Towers residence hall.
- Learned how to treat customers in various situations and how the Residence system works at Purdue University.

Bridging Group Korea

Moderation Intern

06/2020 – 07/2020

Seoul, Korea

- Successfully managed a diverse group of 500 international buyers and sellers, utilizing fluency in Korean, English, and Chinese, while moderating SPP2020, a high-profile event sponsored by the Seoul Business Agency.
- Acquired valuable customer service experience and a comprehensive understanding of the Residence system at Purdue University through various situations.

Publication

- Oh, D., Kang, K., Seo, S., Xiao, J., **Jang, K.**, Kim, K., Park, H., Won, J. (2023). Low-Cost Object Detection Models for Traffic Control Devices through Domain Adaption of Geographical Regions. Remote Sensing. <https://doi.org/10.3390/rs15102584>
- Kim, H., Kim, C., Lee, H., **Jang, K.**, Lee, J., Lee, K., Kim, G., Kang, J. (2024). KU-DMIS at EHRSQL 2024: Generating SQL query via question templatization in EHR. NAACL. <https://arxiv.org/pdf/2406.00014>

Conference Presentation

- Purdue Undergraduate Research Conference | 2023
Jang, K., Oh, D., Kang, K. (2023). Domain Adaptation Using Pre-trained Object Detection Models for Traffic Control Devices in Other Geographical Regions. *Purdue Undergraduate Research Conference*
- The Data Mine Corporate Partners Symposium | 2022
Alhasan, Isslam., Ghaisas, Mihika., Iyer, Sankaran., **Jang, K.**, Kris, Leungwattanakij., Zheng, Annie. (2022). Prediction Model to Help UPS Identify Potential Companies that Yields Positive Results for the Company Using K-Means Algorithm. *The Data Mine*

Leadership Experience

Purdue Korean Association (PKA)

Recruiting Team Leader

08/2021 – 08/2023

West Lafayette, Indiana

- Led a team of 10 members, the largest in the association, and collaborated with Korean companies to recruit talented individuals worldwide.
- Secured club operation fees through successful donation requests from prominent companies such as Samsung Electronics, LG, and SK Innovation, resulting in \$ 7,000 raised for the semester.

Republic of Korea Army

Squad Leader

08/2018 – 03/2020

Seoul, Korea

- Served as a squad leader of a radio operation squad in the military at Capital Defense Command.
- Worked as a translator of Chinese, English, and Korean at Army Headquarters.

Projects Experience

Purdue Korean Association Website Development <i>Typescript, React, Figma, Next.js, Nest.js</i>	08/2023 – Present
<ul style="list-style-type: none">• Build a renewal Purdue Korean Association Official Website, independently creating a custom solution without relying on any Content Management System (CMS).• Contribute to front-end and back-end development tasks using Next.js (React.js) and Nest.js while utilizing Figma for UI/UX design to enhance user experience. Website: https://purdueka.org/ (WIP)	
Portfolio Website <i>React.js, HTML, Netlify, Tailwind, Firebase</i>	08/2022 – Present
<ul style="list-style-type: none">• Created and deployed my portfolio website from scratch using Firebase, React.js, CSS, and HTML without relying on pre-existing templates. Website: www.kyochuljang.com (WIP)	
Neural Data Analyzation Program <i>Python Dash</i>	08/2022
<ul style="list-style-type: none">• Developed a user-friendly web application using Scipy for noise processing and Python Dash to assist neuroscientists in analyzing and plotting neural data without the need for coding knowledge. Website: https://github.com/OfficerChul/Neural-Data-AutoPlot-Program	
Online Networking Platform <i>Java, JUnit Test</i>	11/2020 – 12/2020
<ul style="list-style-type: none">• Developed a social networking application similar to LinkedIn, allowing job seekers to showcase their skills and interests to potential recruiters.• Conducted comprehensive testing of all program functions developed by team members using JUnit, successfully identifying and resolving defects to ensure optimal program performance. Website: https://github.com/OfficerChul/Social-Network-Profile-Application	

Awards And Honors

1st Prize (LG AI Hackathon)	04/2024
Dean's List	08/2021 – 12/2023
Semester Honors	01/2021 – 12/2023

Proficiency in Skills

Languages: English (Full Professional Proficiency), Chinese (Full Professional Proficiency), Korean (Native)
Programming Languages: Python, Java, C, C++, R, JavaScript (React.js), LaTeX, CSS, HTML
Tools: GitHub, OBS, Visual Studio Code, Artificial Neural Network (ANN), TensorFlow, Premiere Pro
Certification: HSK (Level 6), Craftsman Information Processing
